for your **career**

National Certificate Level 4
in
Information Technology

About the Course

The National Certificate in IT Course aims to equip students with the foundation skills required to follow a career within the computing field at a technician level. It is also suitable for those who are unsure which area of computing to specialise in and provides a route for them to further their career. The acquired competencies and experience are immediately transferable to industry.

The duration of the course is 1 year fulltime.
